Practical Logistics

- 25 slots per session – Do not exceed this except by special permission.
- If there is no room for you in a session – then you must make another choice or find a person willing to switch with you.
- Students who have special needs must have their eligibility papers on file and **MUST sign up for the last review and exam sessions.**

Point Breakdown

25 Stations (2 Q's per station)

per Q - 50 Points

~1/3 TAXONOMY, IDENTIFICATION

~1/3 STRUCTURE/FUNCTION

~1/3 COMPARISONS BETWEEN PHYLA

Round 1 - 30 seconds per station

Round 2 - 15 seconds per station

Take Note!

- The final practical exam is cumulative.
- Questions will focus on the last phyla studied but there will be questions on the material studied earlier in this course.
- So, study hard from
Arthropoda II – Protista. (last half)
and review from
Microscopes – Arthropoda I. (1st half)

Violating the Academic Policy and our Exam Rules

- Any student caught - or suspected to be *acting in any way against our posted exam practical rules, common sense exam behavior, or in any way that makes us believe that an academic violation could be possible*, will be treated accordingly.
- Take this warning seriously!

The Practical Exam Grading Rules!

- Capitalize taxa

- ½ point **WILL** be deducted for not doing so.

If you wish to use all capitals, make sure the first letter is most definitely **TWICE** as big as the rest.

For example:

Taxonomic terms

Arthropoda (perfect)

arthropoda (-1/2pt)

Non-taxonomic terms

asconoid (perfect)

Asconoid (no deduction)

ARTHROPODA (-1/2pt) Mark the first letter as a capital by:

1 **A** RTHROPODA 2 **A** RTHRO... or 3 **A** RTHRO...

Be especially careful when the first letter of a taxa looks the same regardless of upper/lower casing.

Oligochaeta (perfect)

oligochaeta (-1/2pt)

simple (perfect)

Simple (no deduction)

- Spelling: 1 letter will be over looked
2 letters - lose ½ point
3 letters - lose 1 point

These rules only apply if 1 or 2 letters do not create another word that could mean that the student does not know the answer to the Q.

rat

cat

mesohyl

mesophyll

Cnidarian Plants

Words students frequently spell incorrectly

Animalia

Arthropoda

Chondrichthyes

cilia

cord

mesenchyme

Double Room Exam Flow

Student 'flow' in each room

Exam Logistics

Sign your sheet as soon as you get it.

- to promise to uphold the exam rules/FSU Academic Honor Policy

Fill out the top part to ID your response sheet

- your name, TA's name and your section & exam session #s

Fold your answer sheet in half lengthwise

- keep the blank side facing you to act as a cover sheet.
- open it only when you need to write on it.

Exam Logistics contd.

Circle the 2 numbers

- of the questions of the station where you begin.

Scrap Paper

- Rest your paper on this to prevent your writing transferring to the desk.
- Use it also as scrap paper.

Read each question

- Be careful and give exact answers. Class vs. Phylum etc.

Write legibly or you risk losing points

Exam Logistics contd.

Do not give several answers

- only the first one will be graded (graders discretion).

Multiple letter/# answers

- All must be given to get the point/credit.
- Partial credit is never given for lettered/# responses,
- REASON = equity with across different exam versions.....

e.g. If answer should be A, C and D

You respond A, C or A, C, D & E

Neither answer is correct = missing 1 or too many

Multiple word answers

- Handled at the discretion of the grader.

e.g. answer is reproduction & digestion (2 functions)

You respond reproduction & feeding (1 function wrong)

or gonad (not a function) & digestion

You MIGHT get ½ point (not always)

but reproduction, digestion & excretion = incorrect
as too many responses!

Exam Logistics Contd.

Hats Take off or wear them backwards please.

Don't touch!

Microscopes - adjust only ocular or focal distance

Specimens in jars - gently pick up jars to take a closer look, no shaking!

Dissections

Don't move any of the pins or pointers.

Oops!

If you do think that you accidentally moved a pointer or a pin, raise your hand and tell a proctor/TA immediately.

Exam Logistics contd.

Staring

Up or down - just not at your neighbor's paper!

This is against our rules!

No talking

Questions?- Raise your hand so the TA can come to you

- don't wait until there are only 5 seconds left at the station.

No sign language

This is just like talking and still against our rules!

End of the Exam...

Step back from your response sheet. A proctor will collect it.

Initial against your name on the sign up sheet as you exit the room.

Exit quietly **DO NOT talk about the questions after you leave.**

If you are caught talking to any candidate waiting to take the exam we will assume that you are discussing it. Sharing such information is against our rules. Assuming that you are giving correct answers or clues,...all you are doing is raising the grade average for the class and thus hurting yourself!

Grades will be posted on Blackboard ASAP (late Friday or noon Mon)
